SPECIALIZED U.S. AUTO GLASS CONTACT CENTER OPERATIONS

PROVEN U.S. AUTO GLASS INTAKE. OUTPERFORMING IN-HOUSE U.S. TEAMS.

Offload inbound phones from your repair counters and mobile service bays. Telat Group centralizes retail quoting, insurance TPA triage, 17-digit VIN decoding, and ADAS recalibration capture across nationwide U.S. networks, converting price-shoppers into scheduled work orders before they call a competitor.

AUDITED TRACK RECORD · 3RD PLACE NATIONAL CX AWARD (2025) IMT / CX GLOBAL

Awarded for operational restructuring of a **200+ location multi-state U.S. auto glass chain** (*"Changing the Glass: From Disconnected Appointments to Centralized Success"*), doubling conversion and scaling technician booking capacity.

+20 Yrs	4 Sites	+650	24/7/365

9 AUDITED CERTIFICATIONS & INSTITUTIONAL COMPLIANCE STANDARDS:

ISO 9001:2015 · ISO 18295-1 (Contact Centers) · Modelo Global CIC v3.0 · ISO 27001 (Data Security) · PCI-DSS v4.0 (Card Security) · ISO 20000-1 (ITSM) · ISO 22301 (Continuity) · ISO 37001 (Anti-Bribery) · Distintivo ESR 2026

AUDITED PERFORMANCE · 200+ LOCATION U.S. CHAIN

Telat Operations vs. Domestic U.S. Baseline

Omega EDI & POS Telephony

+30.2% WORK ORDERS

Outperformed In-House U.S. Sales Agents

Dedicated bilingual specialists generated **+30.18% higher sales yield** compared directly on the same inbound queues against the client's domestic U.S. call center.

68.3% PEAK Q-TO-WO

Quote-to-Work-Order Conversion (Up from 33.9%)

Trained intake teams to resolve price-check hesitations: lifted conversion from a **33.96% baseline to 57.45% sustained and 68.27% peak** (surpassing the 50% target).

>50% DROP CUT

Peak & Weekend Call Abandonment Cut in Half

Absorbed Monday morning insurance claim spikes and added **full Sunday coverage**, driving lost call baselines down by **>50% to floor minimums**.

99.6% PART ACCURACY

99.6% NAGS & ADAS Part Lookup Accuracy

Increased part matching from **88.0% to 99.6%** and 1st-contact scheduling from **40% to 88%**, eliminating dry runs and misordered windshield mobile truck rolls.

01 | OPERATIONAL EXECUTION & FLOOR INTELLIGENCE

TURNING INBOUND PRICE-CHECKS INTO BOOKED WORK ORDERS

Agnostic integration with **Omega EDI, CCC ONE, GlasPacLX, Mainstreet, or proprietary enterprise systems**. Offloading counter phones to protect installation bay schedules and capture ADAS recalibration margins.

SERVICE BAY & TECHNICIAN PROTECTION

Centralized intake for retail walk-ins, commercial fleets & mobile vans

INTAKE TO DISPATCH

1. Offload Phone Burden Away from Shop Counters

When store managers and installers answer ringing phones while prepping glass, calls drop and urethane cure windows stall. Telat centralizes all inbound retail and policyholder traffic, including **Sunday and storm surge coverage**.

2. Resolving Price Resistance & Insurance Deductible Thresholds

Specialists compare cash pricing directly against policyholder deductibles ($100 glass endorsements vs. $500 comp), explain aftermarket vs. OEM fitment, and bundle static/dynamic recalibration, raising Quote-to-Work-Order from **33.9% to 68.3% peak**.

3. Precision 17-Digit VIN, NAGS & Sensor Decoding

Upfront mapping of rain/humidity sensors, acoustic glass interlayers, HUD cutouts, and camera brackets lifts 24-to-48h dispatch fulfillment from **74.0% to 96.8%** and slashes delay cancellations from **12.0% down to 1.5%**.

88%	96.8%	1.5%
1ST-CALL SCHEDULING (VS 40%)	24-48H DISPATCH RATE	DELAY CANCELS (VS 12%)

INTAKE INTELLIGENCE & FLOOR GOVERNANCE

Proprietary software suite embedded across dedicated agent pods

ZERO CLIENT LICENSING FEES

1. Real-Time Glass Option & Recalibration Assistant

Live on-screen prompts guide specialists through complex trim options (heated wiper parks, lane departure cameras, acoustic interlayers), eliminating hold times and preventing ADAS recalibration margin leakage.

2. 100% AI-QA Auditing on Operational Intake Gates

Our automated QA engine audits **100% of calls** against your auto glass intake rubric: 17-digit VIN confirmation, exact NAGS part mapping, deductible vs. cash price presentation, and shop bay / mobile time-slot confirmation.

3. Intraday Interval Precision & Peak Queue Absorption

WFM interval precision maintains **>92% schedule adherence**, absorbing Monday morning insurance First Notice of Loss (FNOL) spikes and retail weather surges without letting callers bounce to competitors.

100%	>92%	$350+

02 | INSURANCE TPA COMPLIANCE & ENTERPRISE GOVERNANCE

ENTERPRISE COMPLIANCE & INSURANCE TPA SHIELDING

Audited PCI-DSS cardholder tokenization for over-the-phone deductibles, ISO 27001 data protection for policyholder PII, and ISO 22301 storm-surge failover across 4 binational hubs.

ISO 9001:2015
QUALITY MANAGEMENT
STANDARDIZED INTAKE PROTOCOLS
Audited intake workflows, 17-digit VIN verification gates, and continuous defect reduction to eliminate retail booking errors.

ISO 18295-1:2017
CONTACT CENTER STANDARD
QUEUE RESPONSIVENESS & SLAS
International benchmark dedicated to contact center responsiveness, sub-3.5% call abandonment targets, and first-contact resolution.

Modelo Global CIC v3.0
OMNICHANNEL MODEL
SEAMLESS CUSTOMER INTERACTION
Synchronized intake execution across inbound voice quotes, web-to-call leads, and automated SMS appointment reminders.

ISO/IEC 27001:2022
DATA SECURITY (ISMS)
POLICYHOLDER & FLEET PII PROTECTION
Rigorous data encryption, perimeter firewalls, and audited access controls protecting driver records and corporate fleet accounts.

PCI-DSS v4.0
PAYMENT SECURITY
PHONE DEDUCTIBLE COLLECTION
Clean-desk certified environment for collecting insurance deductibles ($50, $100, $500) and retail deposits without storing card PANs.

ISO/IEC 20000-1:2018
ITSM INFRASTRUCTURE
SECURE CRM & VDI CONNECTIVITY
High-availability VDI and VPN pipelines integrating seamlessly into Omega EDI, CCC ONE, GlasPacLX, or proprietary client platforms.

ISO 22301:2019
BUSINESS CONTINUITY
STORM SURGE & HAIL FAILOVER
Active redundancy across 4 sites (CDMX, Juárez & El Paso) guaranteeing zero-downtime failover during severe regional hail storms.

ISO 37001:2016
CORPORATE GOVERNANCE
VENDOR INTEGRITY & TRANSPARENCY
Strict anti-bribery standards meeting the rigorous compliance frameworks of publicly traded automotive corporations.

Distintivo ESR 2026
WORKPLACE STABILITY
LOW ATTRITION & TALENT RETENTION
Preserving specialized auto glass knowledge, reducing re-training cycles, and maintaining seasoned booking agents on your queues.

Insurance Claims & TPA Protocol Alignment: Seamless 3-way conference calling and claim intake for LYNX Services, Safelite Solutions, and major carrier comprehensive glass endorsements.

PCI-DSS v4.0 · ISO 27001 · ISO 22301

03 | BINATIONAL SCALE & LOW-RISK VALIDATION

READY TO SCALE & OUTPERFORM IN 30 DAYS

4 Binational Operational Sites (ISO 22301 Redundancy)

MEXICO & U.S. FOOTPRINT

Mexico City (2 Sites)
Insurgentes Sur & Monterrey St. (Col. Roma) · Core Operations

Ciudad Juárez, MX
Northern Frontier Hub · Native Bilingual Delivery

El Paso, Texas (USA)
Binational U.S. Gateway & BCP Failover Site

Active capacity: +650 bilingual floor specialists with immediate absorption and ramp-up capacity of **+200 seats in under 30 days**.

3-STEP HEAD-TO-HEAD PILOT FRAMEWORK

14 to 30 Days to Launch

1. Targeted Queue
Assign overflow traffic, Sunday coverage, or a regional store group with zero disruption.

2. Live Benchmark
Compare our Quote-to-Work-Order conversion and abandonment cut directly against your U.S. floor.

3. Scale with ROI
Expand dedicated bilingual pods backed by 100% AI-QA auditing and nearshore unit economics.
