NEXT-GENERATION CONTACT CENTER ARCHITECTURE

OPERATIONS DRIVEN BY INTELLIGENCE.
BUILT FOR SCALE.

Enhancing customer operations for NexGen Agency by seamlessly pairing artificial intelligence, automated governance, and streamlined digital workflows.

-65% AHT Reduction	**-80%** Cycle Time
99.6% Data Accuracy	**24/7** Availability

We empower NexGen Agency by transitioning from physical headcount dependency to an AI-virtualized hybrid ecosystem. We can virtualize your operational footprint—optimizing required human headcount by **50% or more**—tailored flexibly to your exact campaign volume spikes and SLA demands.

PREVIOUS BASELINE

Traditional BPO Model (200+ Human Agents)

Previously, scaling campaign volume required expanding physical seat headcount—managing over 200 dedicated human agents on the floor to absorb peak transaction hours.

High seat overhead & long ramp-up cycles

NEXT-GEN TELAT AI MODEL

AI-Driven Virtualization (50%+ Headcount Optimization)

By embedding conversational AI, automated data verification, and smart routing, we virtualize routine interactions—reducing human agent requirements by 50% or more while maintaining 100% SLA throughput.

Flexible workforce ratio tailored to campaign needs

Dynamic Campaign Ratios
Scale AI vs. Human mix on demand

03 — CASE STUDIES

PROVEN IMPACT IN OPERATIONAL EXCELLENCE

1. Telecommunication Platforms →
2. Automotive Marketplace →
3. Video Security & Surveillance →
4. Seasonal Retail & Logistics →
5. Omnichannel Custom Support →
6. Automotive Parts & Logistics (US) →

OPERATIONAL ENGINE

Case 1 of 6

Telecommunication Platforms

PREVIOUS MANUAL PROCESS

Manual balance checks and payment setups creating long queues and operational overhead.

TELAT AI & WORKFLOW SOLUTION

Self-service digital tablets for balance checks, automated ticket routing, and AI-assisted content verification.

ACTIVATION ERROR RATE

-85%

CUSTOMER CSAT SCORE

98.4%

04 — THE CHALLENGE

BRIDGING TRADITIONAL BPO WITH MODERN AGILITY

Industry leaders often face operational drag from legacy procedures: manual document reviews, error-prone data entry, idle agent hold times, and fragmented systems.

LEGACY MANUAL OPERATIONS

- Manual data input prone to human transcription errors.
- Siloed data repositories lacking real-time tracking.
- Extended wait times for workflow and document validation.

TELAT INTELLIGENT PLATFORM

- **Automated validation with real-time data verification.**
- **Secure digital records accessible 24/7 across team hubs.**
- **Instant response times backed by continuous SLA monitoring.**

05 — OUR SOLUTION

INTEGRATED WORKFLOWS: END-TO-END AUTOMATION

Telat Group delivers more than contact center support. We analyze, optimize, and connect modern technology to streamline end-to-end customer and Back-Office operations.

1

Intake & Data Capture

Smart ingestion and extraction of structured data for automated cloud-based processing.

2

Business Rules Engine

Automated compliance and document verification for contract files and compliance records.

3

Smart Routing & Dispatch

Integrated dispatch and resource coordination to track operational orders without friction.

4

Centralized Orchestration

Seamless bridge connecting CRMs, back-office tools, and engagement channels with 24/7 insights.

06 — ABOUT TELAT GROUP

APPLIED TECHNOLOGY FOR NEXGEN AGENCY

TALENT & TECHNOLOGY EVOLUTION

2005 - 2026

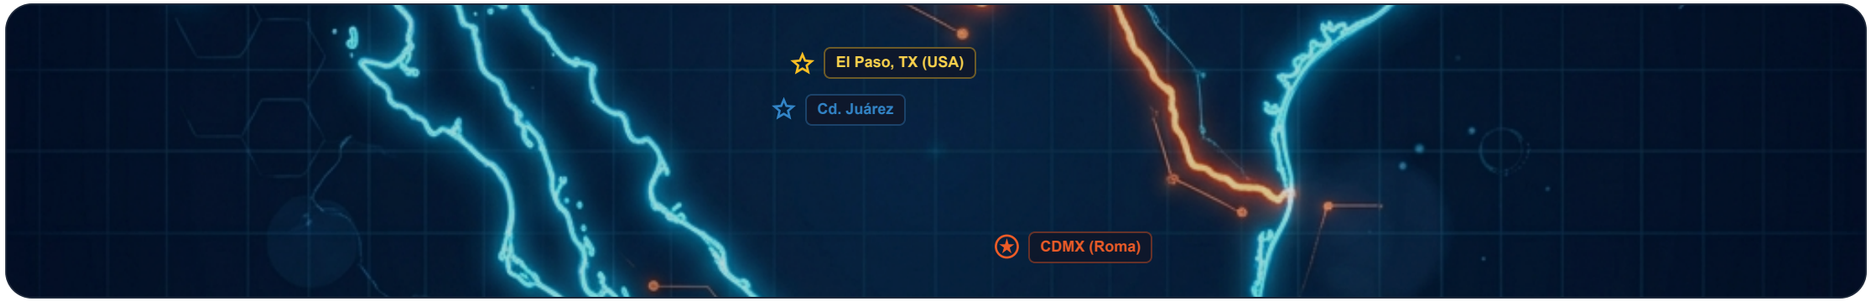

Over 20 years leading customer experience, automation, and AI operational capabilities across North America. We are an operational partner driving technology and team excellence.

Human talent optimization via AI technology, scaling to 650+ specialists.

Operational Hubs Network

BINATIONAL US / MX

- **CDMX (Roma):** Corporate & Operations
- **Cd. Juárez:** Mission-Critical Operations Hub
- **El Paso, TX:** Bilingual Nearshore Hub (US)

07 — ASSESSMENT & NEXT STEPS

OUR METHODOLOGY & EXECUTIVE CALL TO ACTION

1. **Operational Profiling & Audit**
   Identifying bottlenecks and mapping operational workflows at zero cost.

2. **Architecture & AI Prototype Integration**
   Configuring conversational AI tools and automated business rules.

3. **Deployment & Team Onboarding**
   Go-live execution with active floor support and supervisor coaching.

4. **Continuous SLA Optimization**
   Ongoing quality auditing and performance refinement backed by contract.

EXECUTIVE STRATEGIC NEXT STEP

READY TO ELEVATE NEXGEN AGENCY OPERATIONS?

We evaluate your operational workflows at zero cost, architect a tailored automation prototype incorporating AI tools, and deliver a contractually backed operational efficiency model.
